RAISEonline 2015 Summary Report
Avanti House School

Unique Reference Number (URN)   138227
DfE Number   3104000
Local Authority   Harrow

Based on the following datasets for 2015:-
Key Stage 1:   unvalidated data

Production date : 15 October 2015

Important

The aim of the summary report is to help you see how effectively a school is performing in terms of the achievement, attendance and behaviour of its pupils. The report is made available to schools to help with their self-evaluation and planning to raise standards, and is used by inspectors, together with the new Inspection Dashboard, to inform their planning for an inspection.

The Early Years Foundation Stage Profile report is provided for use in the context of evaluating children's readiness to start Year 1 in terms of their development. Data are provided for all of the early learning goals to aid schools and inspectors identify any areas on which teaching may not have placed sufficient focus. The report is for groups, rather than at interactive pupil level, to provide an overview of development needs on entry to Year 1. The report currently displays 2014 data. Data for 2015 will be published in RAISEonline with the Key Stage 2 validated release.

Changes for 2015

On 1 September 2014 a range of SEND reforms were introduced as part of the Children and Families Act. Following the changes to SEN school census codes, RAISEonline will now show data for no SEN, SEN support (which replaces School Action and School Action Plus) and SEN with a statement or an Education, Health and Care (EHC) plan.

The definition of a disadvantaged pupil has changed to reflect changes to the conditions of funding for the pupil premium in 2014-2015. Pupils will be defined as disadvantaged in RAISEonline if they are recorded as:

* eligible for Free School Meals (FSM) in the last six years or

* looked after continuously for one day or more or

* adopted from care.

The Year 2 phonics report now shows the percentage of pupils that have reached the expected standard by the end of Year 2, whether it was in Year 1 or in Year 2. A new report is available for those pupils who did not reach the expected standard in phonics at the end of Year 1 or who have taken the screening check for the first time in Year 2. This report is in the format of a transition matrix and shows the Year 1 marks achieved alongside the Year 2 outcomes to which pupils have progressed. A three year trend phonics report has also been introduced.

The exclusion reports now contain additional data on repeat exclusions. They show the percentage of pupils with more than one fixed term exclusion during the academic year.

Shading

Shading in the Closing the gaps reports is applied only for 2015 results and only to the gaps between results for disadvantaged pupils in the school and other pupils nationally. It is intended to identify gaps of educational importance. At Key Stage 2, it is applied only to the table for expected, and more than expected, progress from each Key Stage 1 starting level. Where the school's percentage of disadvantaged pupils falls below the national percentage for other pupils by an amount equivalent to one or more pupils, the difference is shaded red. Where the school's percentage of disadvantaged pupils is equal to or above the national percentage for other pupils, the difference is shaded yellow. At Key Stage 1, shading is applied to the table for average point scores (APS). Where the disadvantaged group's APS is at least four points (equivalent to two sublevels) less than the national APS for other pupils, it is shaded red. Where the disadvantaged group's APS is equal to or above the national APS for other pupils, it is shaded yellow.

Elsewhere in RAISEonline, green and blue shading are used to demonstrate a statistically significant difference between the school data for a particular group and national data for the same group. However, the performance of specific groups should always be compared with the performance of all pupils nationally. Statistical significance does not necessarily correlate with being educationally significant.

Further information and guidance on the shading and the methodology used to calculate other measures presented in RAISEonline can be found at https://www.raiseonline.org in the Library section in the folder 'How Ofsted and DfE analyse your data'.

Other information

The FAQ section of the library includes a wide range of common questions. Further information is also available within each interactive report at the 'Help?' button near the top right of the screen. We also recommend that you read RAISEonline Latest news regularly to keep up to date.

The Key Stage 1 unvalidated reports reflect the data received by the Department for Education (DfE) by the collection deadline. Any data submitted after this deadline will be incorporated within the final datasets if these are published.

The Key Stage 2 unvalidated reports do not reflect the outcome of amendments requested by schools during the annual performance tables' data checking exercise run between 7 September and 18 September 2015. Accepted amendments from the checking exercise will be included in the DfE Key Stage 2 performance tables being published in December 2015 and the subsequent release of validated data in RAISEonline.

We are not able to make ad hoc changes to published data in RAISEonline. The website provides interactive reports, accessed via the 'Tree view' tab. The interactive reports allow access to pupil level data that underlie the measures contained in the summary report and a range of other analyses. If you think your measures are wrong, please first check these underlying pupil list reports. After this step, if you think there is an error in the measures due to a miscalculation rather than incorrect data please use the 'Contact us' facility on RAISEonline https://www.raiseonline.org or email enquiries@ofsted.gov.uk.

The 'School's own data' section of RAISEonline contains a copy of the underlying data that a school's RAISEonline administrator may amend. You will be able to see if analyses for your school would change and use these in discussions with school improvement partners and inspectors. Note that the changes will apply to the school's own copy of the data only; the published data in RAISEonline will remain unaffected.

The summary report is divided into the following sections

1. Context

2. Absence and exclusions

3. Prior attainment (for schools with Key Stage 2)

   Early Years Foundation Stage Profile

4. Attainment in Key Stages 1 and 2

5. Progress (Value added then Expected progress, for schools with Key Stage 2)

6. Closing the Gaps

Important Information for Governors – Primary

Effective governance is an intrinsic part of good leadership. An increasingly autonomous school system needs informed governors who know their schools well and hold leaders to account for the achievement, behaviour and safety of all pupils in their school, including the most able and disadvantaged pupils, those for whom the pupil premium provides support.

The purpose of RAISEonline is to support school self-evaluation and to inform the school inspection process. Key information from it is summarised in Ofsted's new Inspection Dashboard, which governors should look at first to gain a broad overview before looking at the more detailed charts and tables in this RAISEonline summary report. The Inspection Dashboard shows three-year trends for all pupils and key groups, including disadvantaged pupils, and identifies strengths and weaknesses.

This RAISEonline summary report contains tables and charts that compare school and national figures. The figures allow governors to ask themselves questions that are essential for evaluating pupils' performance. Such questions for each set of tables are shown in the lists below. Examples for progress tables are: Is progress above average? How much is progress rising or falling? In which subjects is progress strong/weak? Governors can then follow up with challenging questions to leaders.

Governors could ask leaders follow-up questions such as these:

*   Why?

*   How might curriculum provision, teaching or leadership and management be linked to it?

*   How do performance/absence/exclusions in all current year groups compare with this?

*   What actions are being taken to address this in all year groups? What is the strategy for improving this? How do improvement plans include and emphasise this? What objectives and targets have been set?

*   How well are all staff involved with improving this?

*   What evidence do you have of the impact of these actions?

*   Which uses of the pupil premium are being effective in raising progress and attainment?

Attainment and progress sections

The tables and charts showing pupils' achievement are in two separate sections: attainment and progress. The four different types of achievement data are:

Attainment

*   threshold data, which show the proportion of pupils that meet a particular standard

*   average attainment of pupils, shown as an average point score (APS)

Progress between Key Stages 1 and 2

*   expected progress and more than expected progress data, which show the proportions that make the progress expected by the government (two levels), or more

*   value added (VA), which is an aggregate of each pupil's progress in relation to the progress of all pupils nationally with similar prior attainment

Expected progress is calculated within each subject, for example, for reading it is based on the difference between a pupil's Key Stage 1 and Key Stage 2 attainment in reading. Value added uses each pupil's average Key Stage 1 score in reading, writing and mathematics combined as its baseline for calculating VA in a single subject, such as mathematics, and overall VA for mathematics, reading and writing combined.

RAISEonline Summary Report based on unvalidated 2015 data

In many tables, green or blue shading is used where school results are statistically significantly above or below the national figure. The part of the RAISEonline library to which the public has open access contains details of how figures are calculated.

Tables that are particularly useful for governors

Tables that governors might find particularly useful to look at are highlighted by the letter G in the top right corner. Governors may find it most useful to look first at the tables summarising three year trends in progress, including those showing gaps between disadvantaged pupils and others nationally, to show how well the school is performing compared to others whose pupils have similar prior attainment. Governors may then find it useful to look at three year trends in attainment, before moving onto details for groups and the tables showing absence, exclusions and context. This is the order of tables shown in the Inspection dashboard. In contrast, the lists of tables below do not follow this sequence. Instead, they are clustered into types of table and are listed broadly in the order in which they appear in the summary report, to assist in locating them. Descriptions of the tables highlighted with the letter G and their numbers are below.

An overview of key data

These four sets of tables provide a quick overview.

1. Three-year and longer trends in key measures for all pupils:

Basic characteristics of your school (Table 1.1.1)

The Key Stage 1 prior attainment of pupils in each year group (Table 3.1.1) (Note that prior attainment is the best indicator of future performance.)

Absence and exclusions (Table 2.1.1)

The percentage of pupils achieving a good level of development in the Early Years Foundation Stage Profile (tables at the front of the attainment section, currently for 2014) (A good level of development is achieving at least the level expected in each early learning goal in the following areas of learning: communication and language; physical development; personal, social and emotional development; literacy; and mathematics.)

The percentage of pupils that met the expected standard in the phonics screening check in Year 1 and by the end of Year 2 (Table 4.1.1)

Key Stage 1 average attainment overall and in each subject (Table 4.2.4)

Key Stage 2 average attainment overall and in each subject (Table 4.3.5) (4.1.5 in junior schools) (Average attainment is given in terms of average point scores (APS), where 6 points represent one level, 15 points are equivalent to Level 2 and 27 points are equivalent to Level 4).

Progress in terms of value added overall and in each subject (Table 5.1.1) (Value added compares each pupil's Key Stage 1 to 2 progress with all pupils nationally of similar prior attainment, assigns a score, aggregates scores to school level and centres them around 100.)

These tables allow governors to ask themselves, and follow up, essential questions such as:

Is absence below average? How much is it diminishing?

Is the proportion of persistent absentees below average? Is it falling?

Are levels of exclusion below average? Are they appropriate? Are they falling?

Does the difference between exclusions and number of pupils excluded show a low rate of repeat exclusions?

Are children well enough prepared for Year 1 (have enough achieved a good level of development in the Early Years Foundation Stage Profile?)

Is the percentage of Year 1/Year 2 pupils achieving the expected standard in phonics above the national figure? Is it rising? (currently only 2015 data are available for Year 2)

Is attainment above average? How much is attainment rising?

In which subjects is attainment strong/weak?

Is progress above average (100)? How much is progress rising or falling?

In which subjects is progress strong/weak?

2. Attainment of thresholds for all pupils this year:

Percentage attaining or surpassing each Key Stage 1 level in each subject (Chart 4.2.1)

Percentage attaining or surpassing each Key Stage 2 level in each subject (Table 4.3.1) (4.1.1 in junior schools)

These tables allow governors to ask themselves, and follow up, essential questions such as:

Do enough pupils attain the expected standard (KS1 Level 2, KS2 Level 4)?

Do enough pupils attain high standards (KS1 Level 3 or above, KS2 Level 5 or above)?

Do enough pupils finish Year 6 ready to access the secondary curriculum (attain Level 4B or above)?

3. Progress from different starting points for all pupils this year:

Expected progress in reading from Key Stage 1 to Key Stage 2 (Table 5.2.1) (The progress expected by the government is two levels, such as from Level 2 to Level 4.)

Expected progress in writing from Key Stage 1 to Key Stage 2 (Table 5.2.3)

Expected progress in mathematics from Key Stage 1 to Key Stage 2 (Table 5.3.1)

Comparison of Year 1 and Year 2 phonics outcomes for pupils who did not achieve the expected standard in Year 1 (Table 4.1.2)

These tables allow governors to ask themselves, and follow up, essential questions such as:

Are enough low prior-attainers (Level 1 or below) catching up to reach Level 4, by making more than expected progress?

Are enough of those who reached the expected level (2) at Key Stage 1 attaining the expected Level 4 (expected progress) and reaching Level 5 (more than expected progress)?

Are enough high prior-attainers (Level 3 or above) attaining at least Level 5 (expected progress), and reaching Level 6 (more than expected progress)?

Do the overall percentages making expected progress (on bottom row of the table) meet the progress part of the floor standard (in 2014, 94% in reading, 96% in writing and 93% in mathematics; 2015 standards are published in December 2015)? A school will be below the floor standard if it is below both the attainment and progress elements of the floor standard.

Are enough pupils improving in phonics to meet the expected standard by the end of Year 2?

4. Closing the gaps in achievement between disadvantaged and other pupils

Closing any gaps in progress and attainment between disadvantaged pupils and other pupils nationally is a key focus for schools. The 'Closing the gaps' section at the back of the summary report shows three-year trends in the gaps in progress and attainment between disadvantaged pupils in your school and:

* all other (non-disadvantaged) pupils nationally

* other pupils in your school.

For Key Stage 2, the four tables show:

* expected progress in mathematics, reading and writing from different starting points

* progress in terms of value added

* average attainment

* attainment of thresholds.

For Key Stage 1, the last two tables are shown.

The key table, showing expected progress from different starting points, contains shading for comparisons of the 2015 progress of disadvantaged pupils with national figures for other pupils. Yellow shows school proportions at or above national figures; red shows proportions lower than national by a margin of one or more pupils. At Key Stage 1, shading is used on the average attainment table, with yellow showing 2015 attainment of disadvantaged pupils that is equal to or above the national average for other pupils, and red shading showing where it is below by two-thirds of a level (four points) or more.

These tables allow governors to ask themselves, and follow up, essential questions such as:

Is there a gap between the disadvantaged pupils and other pupils nationally?

If so, how fast is it closing?

How wide are in-school gaps? How quickly are any gaps closing?

Tables providing further detail and data for groups

Other tables marked with a G provide data for groups and further detail. The performance of groups should always be compared with the performance of all pupils nationally, also noting the comparison with the particular group nationally.

Progress of groups

Expected progress from different starting levels for disadvantaged pupils and others (Tables 5.2.2, 5.2.4 and 5.3.2).

Value added three-year trend overall and this year for subjects (Table 5.1.4)

Scatter plot of value added for each disadvantaged pupil and other pupil (back page)

The value-added table allows governors to ask themselves, and follow up, essential questions such as:

Which groups make the most progress and which make the least progress? How wide is the gap?

Which groups make below average (100) progress?

The scatter plot allows governors to ask themselves, and follow up, essential questions such as:

How does the value added differ for disadvantaged and other pupils, and for different prior attainment?

Is the value added very low for any pupils?

Attainment of groups

The percentage of pupils achieving a good level of development, and the level of learning and development expected in each early learning goal in the Early Years Foundation Stage Profile (at the front of the attainment section)

Phonics screening check attainment in Year 1 and by Year 2 (Tables 4.1.4 and 4.1.5)

Key Stage 1 average attainment overall and in each subject (Table 4.2.5)

Percentage attaining or surpassing Key Stage 2 Level 4 in each subject and in all of mathematics, reading and writing (Table 4.3.2) (4.1.2 in junior schools)

These tables allow governors to ask themselves, and follow up, essential questions such as:

Do enough children achieve a good level of development in the Early Years Foundation Stage Profile? In which early learning goals is achievement highest/lowest? How ready are children for Year 1 in terms of communication, language, literacy and mathematics? Is children's personal and physical development good enough?

Do enough pupils meet the expected standard in the phonics screening check in Year 1, or by the end of Year 2?

Which groups attain most highly and which have lowest attainment? How wide is the gap?

Does the overall percentage attaining at least Level 4 in all of mathematics, reading and writing meet the attainment part of the Key Stage 2 floor standard (65% in 2014 and 2015)? A school will be below the floor standard if it is below both the attainment and progress elements of the floor standard.

Inspection

Inspectors will meet with as many governors during an inspection as is possible. They will expect governors to be knowledgeable about the school's own information on the performance of its current pupils. They will also expect governors to be familiar with historic performance data, including the summaries that Ofsted's new Inspection Dashboard presents for their school, and know what the information in them shows about the performance of the school. Inspectors will consider how well those responsible for governance use information to evaluate the performance of the school and to ask challenging questions which help the school to sustain high performance or to improve for all pupils, including disadvantaged pupils. Inspectors will consider the impact of what a school is doing to narrow any gaps in progress and attainment between disadvantaged pupils in the school and other pupils nationally, as well as in the school. The School inspection handbook contains further information about how inspectors evaluate the effectiveness of governance. It also stipulates that inspectors should consider a wide range of data including information provided by the school.

Context

Table 1.1.1: Basic Characteristics of your school (PriSec2.1)

This shows some key indicators for your school, together with national averages for maintained mainstream Secondary schools. The information is based on the January School Census return. The Quintile graphs display the indicators for the current year only. These figures are divided into five intervals, each containing approximately 20% of schools. The interval boundaries are shown below the line, and your school's position in the distribution is indicated by a shaded box.

Absence and exclusions

School Level Absence and Exclusions - 3 Year Trend (Trend_1)

Table 2.1.1

Latest absence and exclusions data are published here in December for mainstream schools and in Spring for special schools.

Absence indicators are based on 2 terms of data (autumn and spring) for mainstream schools and 3 terms of data for special schools. Exclusions indicators are based on 3 terms of data, so become available later than mainstream absence data. The exclusions data shown are for one year earlier than the absence data.

	2013			2014			2015		
	School	National average for secondary schools	Median trendline for school's FSM* level	School	National average for secondary schools	Median trendline for school's FSM* level	School	National average for secondary schools	Median trendline for school's FSM* level
Absence									
% Persistent absentees- absent for 15% or more sessions	2.4	6.6	3.9	0.4	5.8	3.6	-	-	-
% of sessions missed due to Overall Absence	4.6	5.9	4.8	2.9	5.1	4.4	-	-	-
Exclusions

Fixed term exclusions as a percentage of the pupil group	0.73	6.87	-	-	-	-	-	-	-

2015 absence data will not be available until the end of the autumn term 2015 for mainstream schools.

RAISEonline Summary Report based on unvalidated 2015 data

Absence and exclusions

Table 2.1.2: School Level Absence by pupil groups (Abs_2)

Absence data are published here in December for mainstream schools and in Spring for special schools.

Absence indicators are based on 2 terms of data (autumn and spring) for mainstream schools and 3 terms of data for special schools.

There is no data available for 2015

RAISEonline Summary Report based on unvalidated 2015 data

Prior Attainment

G

Table 3.1.1: The Prior attainment of pupils at Key Stage 2 (PriorKS2)

There is no school data available.

RAISEonline Summary Report based on unvalidated 2015 data

Table 3.1.2: The prior attainment of pupils at Key Stage 3 and Key Stage 4 (PriorKS3_4)

The tables below show the prior attainment in terms of Key Stage 2 average fine points score, of pupils studying at Key Stage 4 and Key Stage 3 in your school in 2014/15. This has been broken down by year group. The tables also show the national picture for maintained mainstream schools. The national averages are not comparable with previous years. When interpreting the tables the level of coverage should be taken into account.

Average fine points score at KS2

NC Year starting Sept 2014	School	National	Difference	Sig	% Coverage
Year 9	29.7	28.4	1.3	Sig+	90.6
Year 8	30.3	28.6	1.7	Sig+	93.1
Year 7	30.1	28.9	1.2	Sig+	93.6

% by Prior Attainment Band

	School				National		
	Low	Middle	High	% based on TA *	Low	Middle	High
Year 9	8.0	48.3	43.7	N/A	13.4	48.1	38.4
Year 8	4.9	38.3	56.8	N/A	13.5	44.8	41.7
Year 7	5.3	38.2	56.5	N/A	11.2	45.3	43.4

* The percentage of the cohort for whom teacher assessment only is used in the average points score is shown for only Year 11, because the national proportion was high for Key Stage 2 in 2010.

Notes

Reading table includes all pupils awarded 'W' in their teacher assessment for Reading with a valid Pscale grade
Writing table includes all pupils awarded 'W' in their teacher assessment for Writing with a valid Pscale grade
Mathematics table includes all pupils awarded 'W' in their teacher assessment for Mathematics with a valid Pscale grade
The total numbers of pupils on Pscales is shown for P4 - P8 and P1i - P3ii. Pupils who have a Pscale in both P4-P8 and P1i - P3ii in a subject will be displayed in P1i - P3ii.

Attainment, Average Points Score at Key Stage 1 : Overall and by Subject (KS1.1Trend)

The following pages provide analysis of pupils' average points scores over the last five years in reading, writing and mathematics.

Table 4.2.4

Statistical significance tests have been performed on the data using a 95% confidence interval, and where the school value differs significantly from the corresponding national value for this group sig+ or sig- is shown below. Where the school value differs significantly from the previous year's, ↑ or ↓ is shown to indicate the direction of this change.
