SCIENCE CLUB!

Have FUN with Enriching Science this Term!

With the environmental challenges facing our world today who wouldn't want their child to find science fun and engaging? That's why Mother Nature Science Club helps children achieve this by exploring a wide variety of scientific topics which are as entertaining as they are educational. Your children will watch spectacular demonstrations and participate in experiments and discussions; taking home cool science related items they have made themselves. At the start of each term we send you a 'Parent System Sheet' so you can see what your child is learning and continue to explore the science at home together! This is why our simple motto will always be - *"Let's Have Fun With Science!"*

Key Points:

- ✓ Fun, hands-on and enquiry based
- ✓ Meets National Curriculum science standards
- ✓ Fully trained & full DBS checked instructors
- ✓ Professional lesson plans & equipment
- ✓ Compliments the science classes taught in school & prepares your children for a solid foundation in science
