

Literacy & Expressive Arts

This term, our writing will be based around mini projects such as visual films, events in history topics and The London Eye Mystery. We will still be working on Macbeth, as the latter part of the Spring term was focused on revision for the SATs. Transitional objectives will be covered to allow for children to readily use their skills before September. The second half of the summer term will also be focusing on the end of year production!

Computing

explore all the features of a given animation package and for a video or animation to suit a purpose

Computer networks including the internet; how they can provide multiple services, such as the world-wide web; and the opportunities they offer for communication and collaboration

Sanskrit & P.E.

Sanskrit will start again this term
PE: cricket and athletics

Maths

The summer term objectives will be based around investigative approaches to maths including problem solving.

The children will create their own products, design and sell them for 'Mini Enterprise' Week.

This will allow for the children to consolidate their learning into real life contexts, which will of course help them when they leave us.

YEAR 6 SUMMER TERM 2017

**Moving on/ Being entrepreneurs
We are performers. Lights
camera Action!**

Humanities & Art/Design Technology

Extreme Earth- Weather Phenomena, Earthquakes, Tsunamis.

Ancient Greece – a study of Greek life and achievements and their influence on the western world.

Influence of the Ancient Greece on modern day architecture.

Construct a 3D building using features of ancient greek architecture.

Mini Enterprise project – children will design and create their own products to sell

Science

Living things and their habitats
Sex and relationship education

This term our focus will be around sex and relationships.

We will be teaching the changes that occur during puberty in both boys and girls, the story of conception and birth. It is essential that we cover all these aspects in preparation for secondary school.

Philosophy Religion & Ethics:

Theme: Rites of Passage

Looking to explore significant key rites of passage and how they affect the body, mind and soul.

PSHE

The children will learn to;

Understand the value of service and duty, understand the roles and responsibilities of people in life; celebrate success with thanks and authenticity, understand the feelings and needs related to being grateful and finally understanding the role of friendship.

**If you have any questions about this term's learning, please do come and speak to me.
Thanks, Miss Patel and the Year 6 team.**
